

# GEMS OF STRADUS

**Kuma**  
**AMSTRAD** **CPC**  
**464**

Your task is to find the 'Gems of Stradus', to succeed you must defeat the guardians (these include not only men, but snakes, ghosts, dwarves and other nasties) and pass through the maze of rooms. There are one hundred rooms, all in excellent colour graphics. An extensive vocabulary is included, every verb 'input' has all the possible options associated with it; thus one can enter 'GET xxx', 'TAKE xxx' or 'PICK UP xxx' with the same effect. A 'HELP' function is to provide clues when difficulties are encountered, however this can be used only a limited number of times, use it wisely! Beware the Madhouse and good luck!
